Alembic Global Advisors (alembicglobaladvisors.com), an independent institutional research firm registered with **Pulse Trading** (<http://www.pulsetrading.com>) and focused on the global chemical industry, said it has joined forces with **HC Securities & Investment** (<http://www.hc-si.com>) to produce research on Middle Eastern stocks. HC is a financial institution in the Middle East and North Africa region.

“We’re very pleased to be entering into this partnership with such a prestigious independent research firm,” stated Hussein Choucri, chairman and managing director of HC Securities and Investment. “By combining forces with Alembic, the top ranked MENA research firm in the latest European Extel Survey, we can now offer the investment communities both in the Middle East, Europe and as well in the U.S. thought provoking research and cutting-edge trading and analysis capabilities.”

“HC’s equity research covers the most active stocks in the MENA region across sectors in addition to macro and strategy coverage related to the region,” according to Hassan Ahmed, co-founder of Alembic Global Advisors, who commented in the release. “This new venture will enable us to provide the best research and analysis to assist our clients in making their investment decisions in the years ahead.” The combined brand, AlembicHC, will be covering stocks across five sectors, chemicals, telecommunications, real estate and construction, diversified industries and financials.
